To Whom It May Concern,

My name is Beau Pollard and I have lived in the Pensacola community for 35 years. My wife, Natalie, and two sons currently reside in Gulf Breeze, FL. in our new home constructed by Heath Kelly Construction. To say that we are pleased with the finished product by HKC would be an understatement. We are extremely happy and proud of our home. We receive constant remarks from neighbors and friends within the community on how much they love our house and its aesthetic beauty from the curb.

The decision as a family to buy an existing home or build a new home was debated for several months and a tough decision to make. Once we finalized our decision to build, the next decision was, "Who is going to build it?" Personally, I am not very knowledgeable in the construction process so it was imperative to find a general contractor that my wife and I felt we could trust to make honest decisions and build a quality product. We met with several general contractors and knew that Health Kelly was the man for the job the instant we met him. Mr. Kelly is a man of integrity; he's honest, hard-working and a man of faith. When making a decision to build a home for my wife and I to raise our kids, the best decision we made is for Heath Kelly Construction to build our home. If at any point in the future we decide to build again, HKC will be the only call I make to build my family another home.

I personally recommend any future home owner to use Heath Kelly Construction as their home builder. You will be extremely happy with the professionalism, his honesty and above all else, a phenomenally custom built home!

Sincerely,

Beau Pollard & Family
