Dear Heath:

I wanted to take this opportunity to thank you for the excellent job that you and your team did for us in building our new Pensacola facility. This is our first storage center in Florida, and we were apprehensive about the unfamiliar and often intimidating building codes and regulations. Your skill and experience in managing the logistics of the work flow and the various regulatory agencies, inspections, Department of Transportation and utility authorities was superb, and you delivered the project on time and within budget.

Obviously, we are pleased with your results, and I invite you to use me as a reference if you think that it would be helpful. Also, please convey our regards to your Superintendent, Kevin. His many years of experience was so important in keeping the work flow going and for making the hundreds of technical decisions that arose.

Sincerely,

Jim Horne, President
